---

Hi Treasure, Emily's schedule does not allow her to meet for this review, and we are making arrangements to have the other HDR hydrogeologist on this project, Greg Kelly assist with the review; I think you may have met him at the site. I will also attend, and the 10/29 and 11/2 dates work better for me, but I could make the 28<sup>th</sup> if needed. Matt is confirming HDR's availability for these dates and we hope to confirm and send an invite later today to schedule this. We'll include address/directions to the site as well. Please let us know if any of these original dates/times no longer work for you or Linda. Thanks.

Hi Jennifer, I've been out of office and am just catching up – I thought I'd seen a follow-up to this when I scrolled through emails this morning (but now can't find it so I might just have imagined that) regarding viewing core with Emily. I think it would be helpful to view with Emily but understand her field schedule might be a challenge to work around. If she's got a short day planned for one of her upcoming projects, we can try to coordinate for that time.

Yes, you are definitely welcome and if we could do it in one visit that would be great. I'll get exact location, but it is in the greater metro area.

I would also be interested in looking at the cores. I should be available the times that Treasure proposed, if you prefer we both come at the same time, so as to take less of your contractor's time. Also, where is the warehouse located?

Thanks.

Linda Jacobson

Hi Treasure, HDR is looking at schedule and we will do our best to make one of your preferred times work. Hope to get this confirmed in the next day or so.

**EXTERNAL - STOP & THINK** before opening links and attachments.

Hi Jennifer,

My availability this month is tricky because I'll be taking a couple days leave and then will be in the field until 10/26. I am available a few hours in the morning (~7am-9:30am) on 10/28 and 10/29, and all day on Monday, 11/2. The afternoon of 10/13 is open for me as of now, as well, although slightly less ideal than the later dates as I'll be prepping for field/work travel.

Please let me know if any of those dates/times work.

Thanks!

Treasure

**Subject:** Comanche drill core review

Hi Treasure, If you could provide us with some dates/times that you are available in the next few weeks, we should be able to arrange to have you look at the drill core in Denver.
